Books & Information

The Urban Aquaponics Manual - 2nd Edition By Gary Donaldson

A complete how-to guide that leads you through the whole Aquaponics experience from the tank to the table. The Urban Aquaponics Manual is not a text book and nor was it written by a scientist or academic. It has been written by an urban farmer....based on his experience. 85 A4 pages full of how-to information. Includes Photo Gallery CD-ROM

\$98.00 **FREE DELIVERY** within Australia

Backyard Aquaponics Book, DVD and CD-ROM By Joel Malcolm

This 113 page A4 book is about the experiences of Joel Malcolm, who has built his own Aquaponics system in his own backyard in Western Australia. The DVD includes the following: - Video segments showing an Aquaponics system based in Western Australia. The DVD will play in most recent standard DVD players. The CD-Rom includes the following: Photos, drawings, system designs, general information including pumping cycles, feed ratios and conversions.

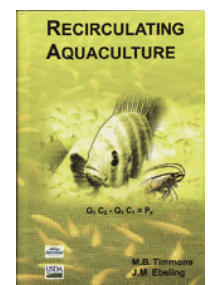

\$98.00 **FREE DELIVERY** within Australia

Recirculating Aquaculture - New Edition

A complete reference book on recirculating aquaculture systems. This new Edition has an extended 55 page chapter on Aquaponics by Dr James E. Rakocy. Recommended for serious backyard Aquaponics growers as well as anyone contemplating commercial Aquaponics.

This Book also includes basic material on fish health management, fluid mechanics, economics, monitoring & control systems, waste management, ozonization, fish nutrition, and building heat transfer and moisture control. . M.B. Timmons, J.M. Ebeling, 2007, Hardback, 975 pgs
